Utilities, Inc. Sewer and Water Main Relocation Project Nears Completion

NORTHBROOK, Ill. – December 14, 2007-- Utilities, Inc. (UI), a national water and wastewater service corporation, and its subsidiary Sanlando Utilities Corporation, are pleased to announce the impending completion of a sewer and water main relocation project along Wekiva Springs Road in Longwood, FL. This \$1.8 million project, which will help pave the way for Seminole County's storm water improvement project, utilized horizontal directional drilling technology for much of the project in order to minimize the impact on streets and sidewalks, as well as meet a tight timeline of 90 days to complete the work. Utilities, Inc. and Sanlando Utilities Corporation are proud to again coordinate with Seminole County's highway department to facilitate its road improvement plan. This project offers Sanlando Utilities the opportunity to make timely improvements to its underground infrastructure in a cost-effective manner.

About Utilities, Inc.

Utilities, Inc. was formed in 1965 to provide developers with an alternative method to obtain water and wastewater utility service. Today, Utilities, Inc. is a portfolio company of AIG Highstar Capital, and through its approximately 90 subsidiaries, operates over 500 utility systems in 17 states and serves over 300,000 customers.
